

**QUALITY POLICY****Quality Policy Statement**

The Benthic Group is engaged in global activities providing sub-seabed data gathering services for geotechnical, engineering, resource investigation and scientific studies.

Our goal is to deliver services that consistently meet or exceed the specified needs and expectations of our clients. To achieve this, Benthic shall apply a Quality Management System in accordance with the requirements of the ISO 9001:2015 international standard.

Benthic Top Management is fully committed to:

- Taking responsibility for the effectiveness and maintenance of the Quality Management System
- Ensuring the Quality Policy and Quality Objectives align with the context and strategic direction of the Benthic organization
- Promoting risk based thinking by ensuring the risks and opportunities that can affect the intended results of the Quality Management System are identified and addressed
- Establishing strong partnerships with interested parties and suppliers to meet client requirements and enhance client satisfaction
- Providing appropriate resources and training to assist all staff and stakeholders to work in accordance with our Quality Management System
- Communicating the importance of Quality to all members of the organization

Each employee will have an understanding of the importance of the Quality Management System, their responsibility to assist implementation of the Quality Policy and to contribute to its effectiveness.

The Quality Management System will be monitored, measured, evaluated and enhanced, with reporting and communication of its status and effectiveness at all levels through Management Review at planned intervals.

This Quality Policy will be reviewed annually and amended where necessary to ensure it remains appropriate to our business and in accordance with ISO 9001:2015.
